

General	Partner Search	
Program / Call for proposals	Program: Erasmus + Action: Key action 2 Cooperation for innovation and the exchange of good practices Creation of a strategic partnership	
Project Title	Project on bees (diversity, beekeeping, agriculture etc.) <i>(no definitive title)</i>	
Leader	Collège Notre Dame – Marvejol, Occitanie, France	
Description of the partner	The Collège Notre Dame is a French secondary-school located in the region 'Occitanie'. Pupils range from the age of 11 to 15. The school already has several experiences in coordinating European projects but wishes to diversify its partners.	
Partners sought	European schools interested in the chosen field (bees)	
Outline of the project	The project would address the questions of environmental conservation, citizenship, heritage with bees as a starting point. The aim is to deal both with the current situation and the challenges ahead. The school already has the possibility to create a partnership with a local association that works on integration of people with disability, including through beekeeping activities ("Le Clos du Nid").	
Activities	Various educational activities for the students (photography, digital production, meeting with professionals, communication, introduction to beekeeping, creation of a conservation campaign, etc.)	
Budget		
Deadline	To create the partnership: December 2017	To submit the proposal: March 2018
