The contact person	Vivien Bieliková +421 907 512 309

Gymnázium A. Vrábla is situated in the area with several kinds of industries, a new industrial park continuously extending and the region is the part of Slovakia's agricultural heartland. Our school comprises 705 students -8% with special learning needs and some are of different multicultural background.. Education in our school is aimed onto several fields of study languages Science, Environmental issues, Maths and preparation for the final leaving exam. There is a plenty of extracurricular activities- volunteering , charity events sporting competitions . We have experienced several Erasmus+ projects that's the reason to continue improving in the internationalization of our school. Our motivation into this project is to continue in our current way towards creating the modern educational institution by improving awareness in the matter of migration and extremism. The utter motivation into such a complex matter has its origin in the Secondary school simulated parliamentary elections in 2016,2020 where the extremist party reached more than 10% out of voters, who are or will be the first-voters in the parliamentary elections, the creators of legal systems, sustainers of democracy in our country. According to the current complicated situation in Europe from the point of view of migration, extremism we believe that education in this field should start in the school. By means of this project we are convinced to raise students' awareness towards MIGRATION – different reasons people had in the past and present, what is EXTREMISM, originating in the history and through history we proceed to educate the students in the field of extremism, not only to tackle the problem of extremism and migration but to explain, educate students in order to abolish or at least significantly diminish the extremist point of views. The topic of extremism, migration is one of the most important issues in the public life on an international level where we feel the strength through education to cause the change. The key people will be the school management – the head + 2 deputies+ the project coordinator– In case leaving her post in the future, the head of English department will take over her role The project team: English department – 2 English teachers the positions are doubled in case of sickness or any situation that might cause leaving the project team IT teachers – 2 IT teachers Geography, Civics, History teachers (1 teacher for each subject) The school has had the long-lasting expertise in the various types of Erasmus+ projects with the labels of examples of good practice and the high-level of English speaking students, devoted teachers in different subjects who participated in Erasmus+ programme projects ( more than 40 staff members out of 52)
